FOOD SERVICE

ZUMMO
COMMERCIAL JUICERS

Z40C

Pure speed, 40 oranges a minute with the fastest machine Zummo has ever made

- The machine uses a squeezing system that is unique in the world, cutting the fruit in half and squeezing it without the juice coming into contact with the peel, this means the juice does not pick up any of the oil or bitterness in the peel, so what you get is top quality, 100% pure, natural tasting juice.
- Automatic juicer for citrus: Oranges, lemons, limes, mandarins, grapefruit and pomegranates
- Digital Programmer and fruit counter for monitoring the number of fruits squeezed plus a digital display screen that provides information on the machine's operating status.
- All our machines are constructed with a stainless steel body.
- Top - mounted rotating basket that is part of the automatic feed system. The basket holds up to 44 lbs of fruit and when full makes the machine visually attractive.
- Drip tray and grille.
- Waste peel collection bins. 4 gal stainless steel bins.
- Self-cleaning system
- Stand by system
- Quick and easy to clean. It only takes 6/7 minutes to disassemble, clean, dry and reassemble the removable parts.

Fruit Size

- Medium size cup kit. \varnothing 2.1 - 3"
- Large cup kit. \varnothing 2.5" - 3.5"
- Extra large cup kit. \varnothing 3" - 3.9"

Ideal

- For establishments where consumption is high
